Showcasing maritime might and valour

Navy personnel take part in a rehearsal ahead of the Navy Day Beating Retreat and Tattoo Ceremony, at the Gateway of India, in Mumbai on Monday. The annual event, organised under the Navy Week celebrations, draws crowds with its blend of military precision, culture and maritime demonstrations | PTI

There is a massive transformation underway across India, and Telangana sits at the centre of it. As the country accelerates its next wave of economic expansion, the state is emerging as a decisive force, a centre of investment and innovation. With a government focused on clarity, reform and competitiveness, Telangana is reshaping its policies, infrastructure and investment landscape, scaling into the most compelling destination.

A STATE OF GREAT GOVERNANCE

With a clear path to becoming a $3-trillion economy by 2047, the government's approach prioritises ease of doing business, transparent approvals, and a regulatory framework aligned with global expectations. Policy direction now focuses on strengthening industrial land frameworks, improving investor facilitation, and building long-term competitiveness across high-growth sectors.

A MATURE INDUSTRIAL LANDSCAPE

Telangana's industrial ecosystem spans pharma, life sciences, aerospace, defence, IT/ITeS, AI, food processing, and more. A reflection of the confidence global firms place in the state's direction. Pharma City, upcoming AI and Innovation Hubs, and support for GCCs and start-ups, are shaping Telangana into a competitive global investment hub built on talent, infrastructure and long-term planning.

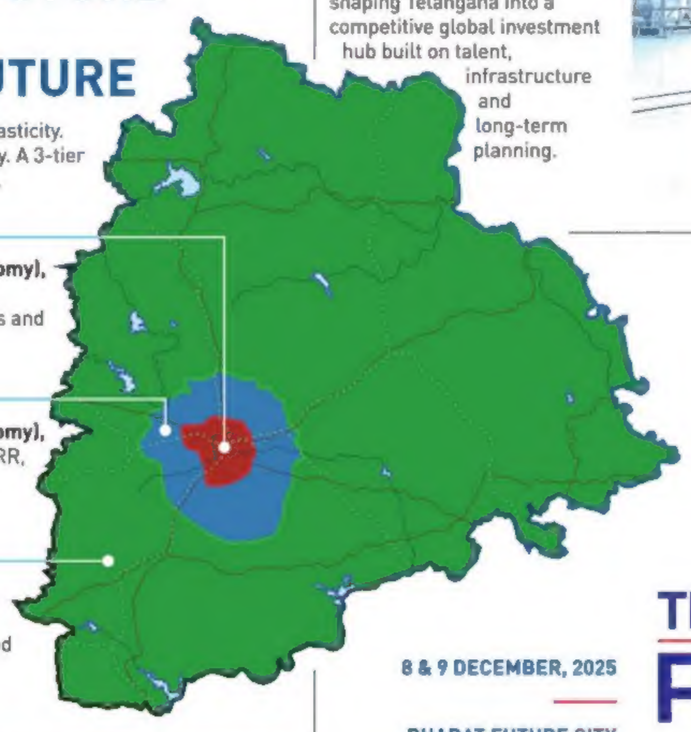
INFRASTRUCTURE DESIGNED FOR THE FUTURE

Hyderabad, the city built for elasticity. Scaling rapidly, and sustainably. A 3-tier growth vision drives it forward.

CURE
(The Core Urban Region Economy), between the city and the ORR, anchored by high-tech services and advanced urban systems

PURE
(The Peri-Urban Region Economy), a belt between the ORR and RRR, for manufacturing, industries and MSMEs

RARE
(Rural Agri Region Economy), beyond the RRR, focused on smart agriculture, forestry, food systems and handlooms



A major driver within this plan is the Future City. A 30,000-acre urban and enterprise hub for global businesses, research institutes, innovation clusters and sustainable living spaces. Combined with rail, road and logistics expansion, the state is building the backbone required for multi-sectoral growth.

TELANGANA RISING GLOBAL SUMMIT

8 & 9 DECEMBER, 2025

BHARAT FUTURE CITY
HYDERABAD
TELANGANARISING2047.ORG

THE RISE HAS BEGUN. THIS WAS DAY ONE.

We want to become $1 trillion economy by 2034, and $3 trillion economy by 2047. We comprise around 2.9% of India's population, but contribute around 5% of the national GDP. By 2047, I want to contribute 10% of India's GDP. The vision may look hard but we can do it.

Today, I am more confident than yesterday. Yesterday was a dream, a plan. Today, all of you have joined us. Telangana Rising is unstoppable. Come, join the rise.

A. REVANTH REDDY
CM, TELANGANA

FOR TELANGANA,
THIS IS ONLY THE BEGINNING.

VISION 2047 TAKES THE NEXT LEAP FORWARD.

The government's **8-point plan** outlines a transformation grounded in growth and inclusion.

1	3-zone state	Core Urban Region Economy (CURE), Hyderabad, for high-tech hubs; Peri-Urban Region Economy (PURE), between the ORR and RRR, for MSMEs and industry; Rural Agri Region Economy (RARE), beyond the RRR, for smart agriculture, forests and handlooms.
2	$3 trillion economy	5x growth driving 10% of national GDP through innovation, entrepreneurship, manufacturing, tourism, and global competitiveness.
3	Investment magnet	Strong infrastructure, progressive policy, talent and logistics, enabling innovation and high-growth clusters.
4	Youth development and empowerment	Integrate education with skill development, to equip them for tech, industry and advanced manufacturing, for global opportunities, and start-ups.
5	Women-led development and social inclusion	Create 1 crore women millionaires, through life-cycle support of policies and entrepreneurship.
6	Farmer empowerment	Double incomes, promote crop diversification, agri-tech, irrigation, FPOs, market access.
7	Healthcare and human development	Strengthen primary and preventive healthcare, digital health, biobanks, skilled workers, and affordable and elderly care.
8	Net-zero development target	Focus on renewables, green infrastructure, circular economy, nature-based solutions.

KEY ENABLERS

Tech & Innovation • Efficient Financing • Digital Governance

Issued by: I&PR Department, Govt. of Telangana

As India accelerates its growth trajectory, Telangana is aligning its governance, infrastructure and economic vision to match the moment. For investors and enterprises seeking clarity, stability, and opportunity, the state offers a landscape built for the future. A path that's never been more promising, and this is the moment to be a part of it. Join the rise.
